

GREEN TEAM AFTERSCHOOL CLUB

Green Team club- grades 2-5

The green team is an after school club for grades 2-5. Students in this club are interested in “going green”. We concentrate on getting educated, spreading the word, and taking action. This year we will be working toward the development of an outside school garden as we break ground to create a thriving outdoor classroom. This outdoor classroom will also be home to a worm compost and we will investigate how to keep worms alive and thriving. We will continue to learn about reducing waste, reusing materials, and recycling efforts within our school as we install outdoor trash and recycle bins. We will learn about endangered animals in our state and becoming stewards of the Earth. This club will have a cap of 16 and invitations will be granted on a first come first notice system. This club is active and interactive as students participate in discussion, gardening and involvement in the school’s vision toward going green.

Our meeting will be every other Wednesday after school in the Library from 3:25-4:15. The meeting dates are as follows: Sept. 14,28-- Oct. 12,26,-- Nov. 9,30—Dec. 7—Jan. 11,25—Feb. 8,22—March, 8—April 5,19—May 3,17

Please fill out the following information and return it to Ms. Boser

Thanks, Ms. Boser and Mrs. Leach
