

STEM Club Application

STEM Club is an enrichment club that focuses on how *science, technology, engineering,* and *math* all work together. Activities will have an engineering portion, but all four areas are needed to complete the challenges given! Students must be in good standing with class work, commit to attendance and participation, and demonstrate collaboration skills.

2nd through 5th grade – Meets Tuesdays from 7:00 to 7:50 am, starting Tuesday, Sept. 18th. Students must be **on time** since I will be meeting them at the front door to let them in. The group is limited to 30 students.

Lego Club will begin in November ☺ Stay tuned!

Cut here!

STEM Club

Permission signatures (**classroom teacher needs to sign to show good standing in class work!**)

Student: _____

Parent: _____

Classroom Teacher: _____
